Can I say it like this instead

✎ :Our contract with HKDC1 has ended back in March. This will not affect our future approach to the Hong Kong region - we treat all of our premium locations with equal care and attention to reliability and service stability.

Adcdata, 04:16

1. The ongoing ddoS protection cost is just too much than we can afford, our contract ended on April-1
2. Service in HK region is currently stopped
3. We are re-establishing another DC point in HK and service will soon be back to normal within a month
4. Due to complexity of china route, we probably are not offering this connection anymore in the short time
